**Special Instructions:** \_\_\_\_\_

## **VACCINATIONS**

All cats boarding at A Cat Clinic are required to be current on Rabies and FVCRP/Distemper vaccinations, free of any parasite and tested negative for Feline Leukemia (FeLV). If your cat goes outside, s/he should be vaccinated for FeLV and if s/he's not, we'll re-test upon each admission to our facility to ensure their negative status. All vaccinations must be administered at least two weeks prior to a boarding stay with us. If your kitty is vaccinated at another facility, you must provide written verification prior to reserving a room. If you do not provide documentation, you will be charged any long distance telephone fees to obtain this information and/or have the tests/vaccinations performed here. All boarding cats must be examined by a doctor at A Cat Clinic within one year of boarding with us.

## **PARASITES**

Your cat will be inspected for fleas/ticks/mites upon admission to A Cat Clinic. If any of these are discovered, we require that your pet be treated prior to boarding at our facility.

## **CHECK-IN/CHECK-OUT**

Your kitty must be checked-in/checked-out no later than 6:00pm Monday through Friday and 12:00pm Saturday. This is to ensure we have enough time to get your cat settled into their space before we close for the day. If you should need to arrive later than this, please be aware that there will be a charge of \$25.00 per cat added to your boarding total.

## **TREATMENT**

When cats are away from home they often times become stressed, which can present itself in many ways such as lack of appetite, gastrointestinal upset, etc. Our doctors will treat these issues with appetite stimulants and fluids, if they consider it necessary. Our technicians are trained to notice any sign of sickness and report to our doctors immediately. If any additional medical concern is discovered, a team member will contact you or your emergency contact person to discuss your cat's health status. If this discovery is made after business hours, we will notify you when the clinic re-opens. The attending veterinarian has the owner's permission to take the essential steps to diagnose and treat in accordance with existing medical standards. The owner assumes full financial responsibility for lodging, medical care, and any other expenditure incurred while their cat is boarding.

## **SUPERVISION**

Maryland law requires written notification by pet care givers when 24-hour on-site supervision is not provided. A Cat Clinic's normal policy is to hospitalize patients overnight when needed and to give appropriate care throughout their stay. A Cat Clinic is open from 8am to 7pm Monday through Friday and 9am to 1pm on Saturday. Boarding is also continued on weekends and holidays. Please feel free to call/email us at any time that we are open to check on your feline family.

I, \_\_\_\_\_, verify that I have read, fully understand and will comply with the above conditions of A Cat Clinic and acknowledge my receipt of a copy of this form.
